Why do Indian students prefer MBBS in Georgia?

MBBS in Georgia is one of the most preferred locations for Indian and International students because of their's affordable fees and cutting-edge medical facilities. Georgia, a country located in the Caucasus region of Eurasia, is rapidly emerging as a popular destination for pursuing MBBS (Bachelor of Medicine, Bachelor of Surgery) among international students. The country is home to some of the top medical universities in the world, which are recognized by organizations such as the Medical Council of India (MCI), the World Health Organization (WHO), and the United Nations Educational, Scientific and Cultural Organization (UNESCO).

The high standard of medical education and low cost of living, coupled with the favorable study environment, make Georgia an ideal destination for students seeking quality medical education abroad. In this blog, we will discuss the MBBS program in Georgia, the fees, MCI-approved medical colleges, and the admission process for Indian students.

Program Overview

The **MBBS in Georgia** is a six-year undergraduate degree program that is taught in English. The first two years of the program focus on theoretical concepts such as anatomy, physiology, biochemistry, and pharmacology. The remaining four years are devoted to clinical training in hospitals, where students gain practical experience in diagnosing and treating patients under the guidance of experienced medical professionals.

The curriculum is designed to provide students with a strong foundation in the medical sciences, which enables them to pursue a career as a doctor or medical researcher. The program also includes elective courses in areas such as sports medicine, dermatology, and psychiatry, which enable students to specialize in a particular field of medicine.

Fee Structure

The **MBBS In Georgia fee** is relatively low compared to other countries. The average annual tuition fee for the program ranges from $5,000 to $8,000. This fee includes the cost of tuition, textbooks, laboratory fees, and other related expenses.

Apart from tuition fees, students also need to cover their living expenses, which include accommodation, food, transportation, and other expenses. The average monthly cost of living in Georgia is around $300 to $500, which makes it an affordable destination for international students.

MCI-Approved Medical Colleges in Georgia

The Medical Council of India (MCI) is the regulatory body that oversees medical education in India. It is important for Indian students to choose an **MCI-approved medical college in Georgia** to ensure that their degree is recognized in India.

Here are some of the MCI-approved medical colleges in Georgia:

1. Tbilisi State Medical University
2. Batumi Shota Rustaveli State University
3. Georgian National University SEU
4. David Tvildiani Medical University
5. Akaki Tsereteli State University

These universities offer world-class medical education and state-of-the-art facilities to students. They also provide opportunities for students to gain practical experience through internships and clinical rotations in some of the leading hospitals in Georgia.

MBBS Admission in Georgia

Admission to the **MBBS in Georgia** is based on merit, and students are required to meet the eligibility criteria set by the university. Here are some of the requirements for admission:

- Academic Qualification: Students must have completed their 12th standard education with a minimum of 50% marks in Physics, Chemistry, and Biology. Some universities may also require a minimum score in English proficiency tests such as IELTS or TOEFL.
